

SAKSHAM GARG

Frontend Developer | React.js | Next.js | TypeScript
Sirhind, Punjab | +91 6284480041 | saksham23garg@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend-focused web developer with professional experience delivering React interfaces, REST API integrations, and custom JavaScript-driven e-commerce workflows. Built independent Next.js applications using TypeScript, PostgreSQL and Supabase, spanning authenticated dashboards, role-based access and developer tools.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend & Databases: Node.js, REST APIs, SQL, PostgreSQL, Supabase, Firebase

Familiar With: Express.js, MongoDB

Tools & Platforms: Git, GitHub, Postman, Vercel, Shopify (Liquid), WordPress

PROFESSIONAL EXPERIENCE

Netgains | Junior Web Developer

Jun 2025 – Aug 2026

- Developed reusable **React** components for **ExpertBridge** (expertbridge.co), a live expert marketplace, spanning landing, pricing, engagement and onboarding experiences.
- Built client request, expert-discovery and user sign-up/login interfaces; integrated authentication, expert and request REST APIs, agreeing API contracts and data requirements with backend developers.
- Built a wholesale Shopify Draft Order payment workflow for Zioncases, enabling **40% upfront and 60% post-delivery payments**.
- Implemented Liquid theme sections and JavaScript storefront functionality; integrated third-party tools and resolved issues on live stores.

Netgains | Web Developer Intern

Jan 2025 – Jun 2025

- Built responsive, mobile-first HTML, CSS and JavaScript interfaces for WordPress websites, with cross-browser testing and page-load optimization.
- Delivered a healthcare website using WordPress and Elementor, including theme setup, plugin integrations and accessible layouts.

PROJECTS

QR Menu & Restaurant Management Platform | Next.js, React, TypeScript, Tailwind CSS, Supabase | [Live Demo](#)

- Built QR menu and ordering flows with restaurant administration for menus, inventory, employees and customer feedback.
- Implemented Next.js API routes, Supabase-backed authentication, PostgreSQL data storage and image uploads.
- Applied restaurant-level data separation using Row-Level Security, role-based access, protected routes, input validation and rate limiting.

DummyDetails | Next.js, JavaScript | [Visit Website](#)

- Developed locale-aware synthetic address and identity generation for 72 countries, including bulk output and postal/phone formatting.
- Built JSON, CSV, TXT and SQL export features, plus 20+ browser utilities for UUIDs, hashing, QR codes, formatting and encoding.
- Attracts approximately **100 monthly users** to a publicly accessible developer utility platform ([analytics](#)).

EDUCATION

Chitkara University | B.E. Computer Science & Engineering | CGPA: 8.7

2021 – 2025

Sri Guru Gobind Singh Senior Secondary School | Class XII | 80%

2021
